

End Point Assessor- Vacancy

This is an exciting new position within SIAS as our first in-house End Point-Assessor, you will deliver end point assessments for our level 2 and level 3 manufacturing and engineering standards. Delivery will be in accordance with SIAS guidelines, policies, and procedures as well as wider quality frameworks, such as IfATE and Ofqual external quality assurance standards.

In your role as an assessor, you will deliver rigorous and effective independent end point assessment at an apprentice's workplace/remotely as applicable.

A full DBS check will be required.

About SIAS:

'From start-point to end-point we help apprentices achieve their potential. We're leading the way with an innovative and collaborative approach to EPA service delivery for the 21st century.'

SIAS is the leading End-Point Assessment Organisation (EPAO) for the technical Science and Engineering Apprenticeship sectors. Ofqual approved, our innovative and quality focused End-Point Assessment (EPA) approach is driven by our obsession in delivering real value to our customers through a non-transactional, partnership-centered model.

We were created in 2015 by industry for industry and we retain a deep and trusted connection with sector employers. Our strong social mission, to support industry and the future STEM skills agenda, remains central and paramount to our vision and approach.

Our stakeholders are at the very heart of all that we do – so delivering a best-in-class level of bespoke support and real value to our Employer and Provider partners ensures that their Apprentices can always achieve their full potential.

We have a high performing team with vast experience within the Science, Engineering and Educational sectors. This assures a superb level of technical quality and professionalism across all aspects of our service - and is one reason why we consistently maintain a 90% plus first-time achievement rate across all Standards we assess.

We believe passionately that End-Point-Assessment doesn't begin at Gateway, it starts when Apprentices start on programme – so we pride ourselves on delivering end to end solutions and the best customer experience right across the learner journeys, from registration through to gateway, assessment, and certification.

At SIAS we love that we are doing things differently - jailbreaking and disrupting the traditional EPA blueprint and working with our stakeholders creatively to deliver maximum positive impact as the go-to EPAO for STEM Apprenticeships nationally!
