

- **Finance & Accounting Apprenticeship**

As an apprentice in our Finance teams, your responsibilities encompass creating and verifying financial data crucial for informed decision-making across commercial operations. You will collaborate with various financial departments, contributing to both internal and external reporting needs. This apprenticeship offers a pathway towards professional accountancy qualifications such as CIMA or ACCA.

You will gain a deep understanding of core business accounting principles, develop business acumen, and grasp the intricacies of the pharmaceutical industry. Upholding ethical standards and legal regulations is paramount, ensuring the integrity, accuracy, and confidentiality of Pfizer's financial information.

### **How this Role Unlocks Your Potential:**

- **Enhanced Analytical Skills:** You will learn to analyse and interpret data to drive value-added insights.
- **Effective Communication:** Develop your ability to convey information clearly to diverse stakeholders.
- **Proactive Leadership:** Take charge of your professional growth, committing to excellence in your role.
- **Mastering Prioritization:** Learn to work under pressure, efficiently managing deadlines and changing priorities.
- **High-Quality Output:** Apply your accounting knowledge to consistently deliver accurate and timely financial information, honing your skills for a successful career.
